

The journey wouldn't be the same without you.

Commercial Manager Opportunities -

Bedford, Dorking, Leeds, Manchester and Birmingham

Starting salaries (dependent on role) £29,356, £36,308 and £43,412

Our work helps make everyday life possible. Today, we're investing significantly in maintaining and improving the safety and reliability of the strategic road network in England. The projects we work on are as large as they are complex, and we work with some of the biggest names in the construction industry. Right now, we're searching for a range of talented commercial managers to work in our Major Projects Division.

We're eager to build on our successful reputation and continue delivering projects that enhance everyone's journey. Projects like the £60 million Great Barford bypass which not only created an improved road link; it reduced noise and restored peace to a rural village. The widening of two of the busiest roads in the UK - the M60 and M25 - that won praise from the industry. And a motorway lighting project that has helped considerably reduce our carbon footprint.

Our future has never been so exciting. And neither have the challenges that lay ahead. The size, scope and complexity of the projects you'll work on will be unparalleled. But that's exactly why you'll want to join us. So if you've experience of managing large projects, and are an innovative thinker with outstanding commercial acumen, visit our website to discover more:
